

PRIVATE INTELLIGENCE FOR DEAL SOURCING

*The deal-sourcing bottleneck, collapsed from two weeks to
thirty seconds.*

BRAZIL – MIDDLE MARKET

PE / M&A

THE THESIS

A research agent for *permanent* companies.

Boreal finds the family-owned industrial businesses the market overlooks — founders aging past 70, four decades of operation, no visible succession plan.

A natural-language search returns, in seconds, a prioritized list of real companies — each with a risk score and a short dossier. Established capital, heritage industries, serious work.

The entire category looks the same. We refuse the formula.

THE SOURCING CATEGORY

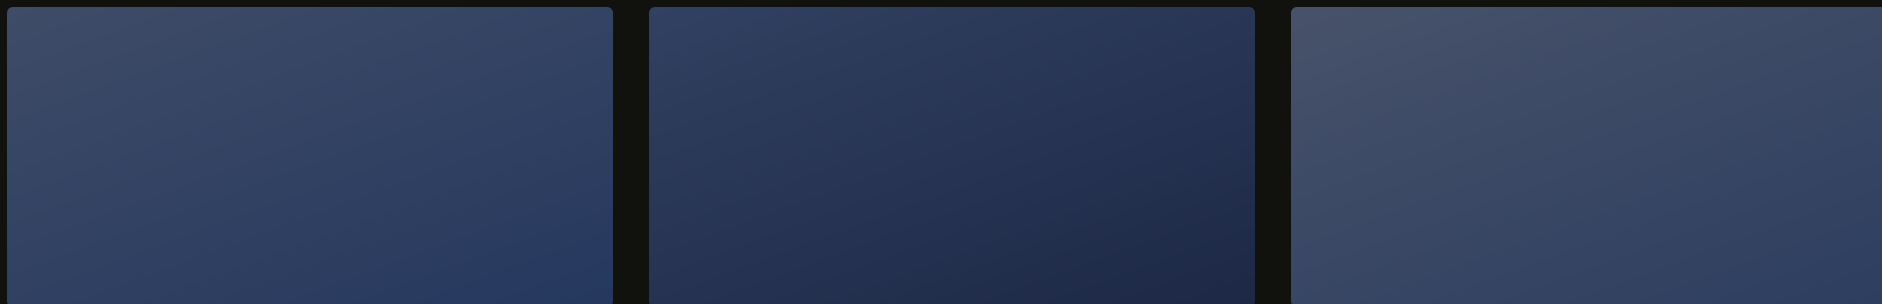

Navy on white

Corporate sans

Light mode

SaaS gradients

Generic blue

Grata, Harmonic, Cyndx, SourceScrub, DealCloud —
one shared palette. Interchangeable.

BOREAL

≈ BOREAL

*Warm. Dark. Editorial. Built like an
instrument, not a brochure.*

Four commitments.

01 Engineered, not decorated Every element earns its place. Precision over ornament; clarity over flourish.	02 Warm, not cold The palette carries warmth in its subtone. Serious capital, with a pulse.	03 Editorial, not corporate A research journal, not a sales deck. Strong type, generous space, quiet authority.	04 Private, not loud Restraint reads as confidence. We whisper where the category shouts.
--	--	--	--

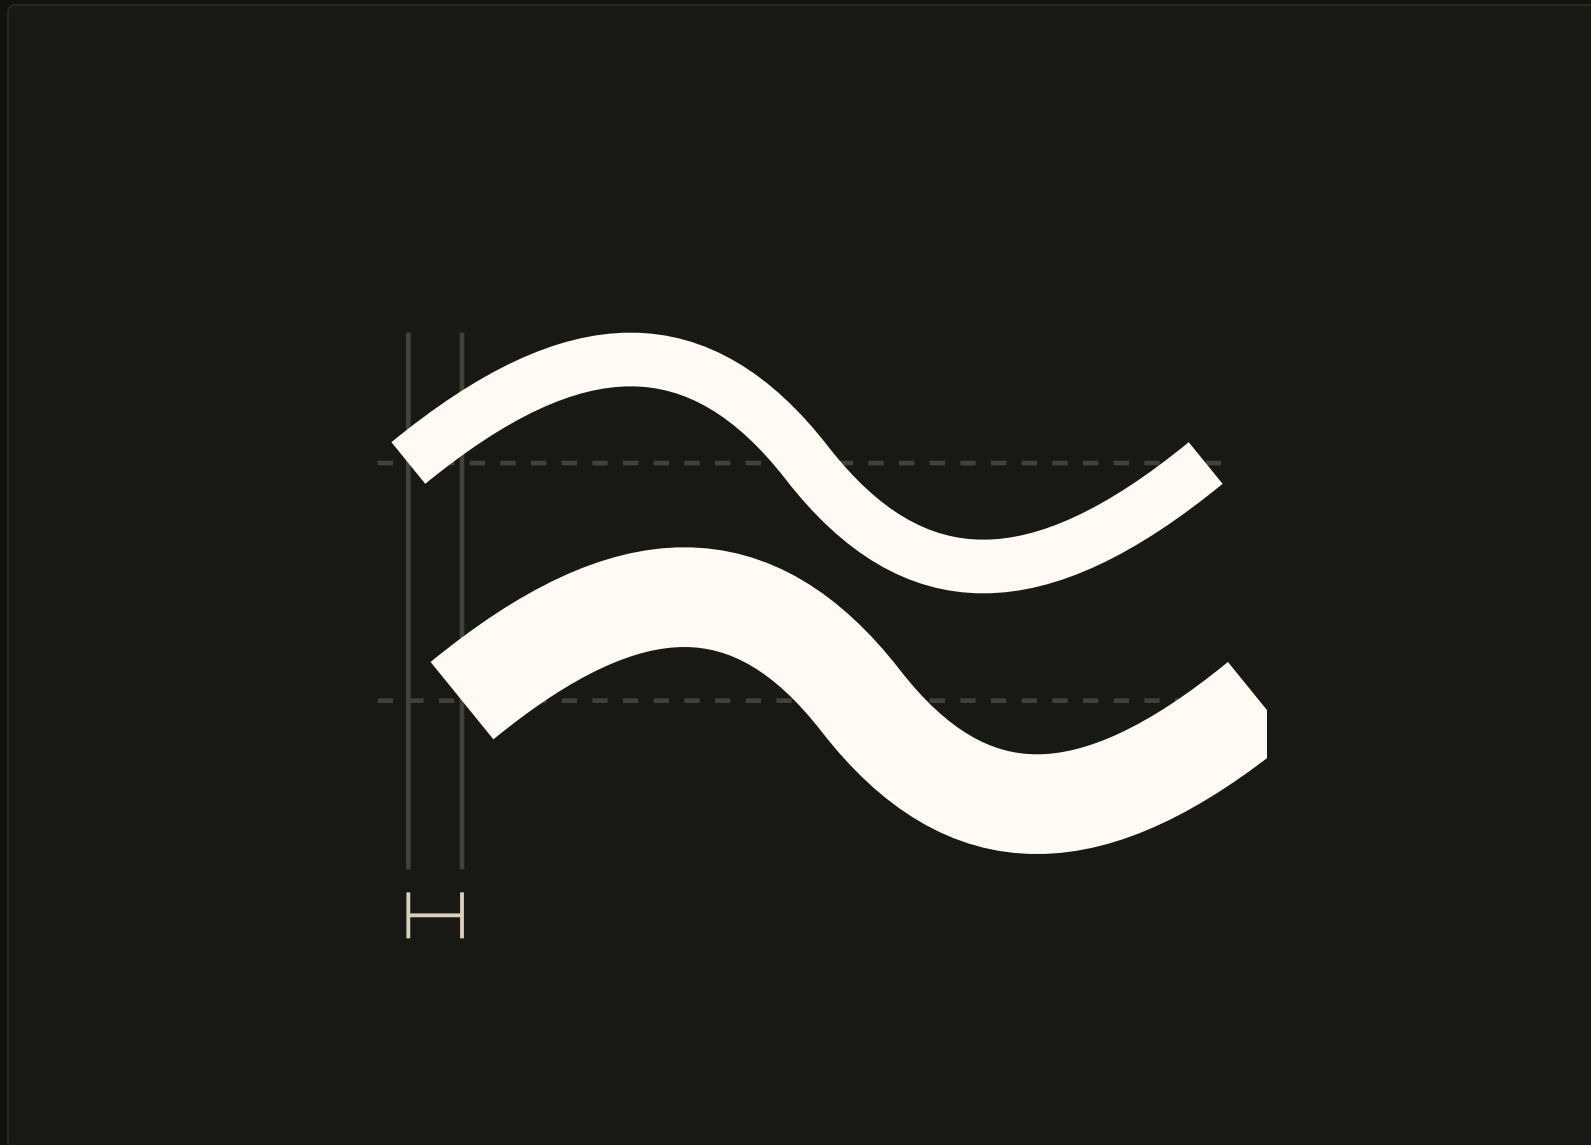

PRIMARY HORIZONTAL LOCKUP

THE MARK — DOUBLE WAVE 3A

Two solid horizontal strokes of distinct weight — the upper lighter, the lower heavier — set with a slight horizontal offset. Smooth, organic curves, never geometric arcs.

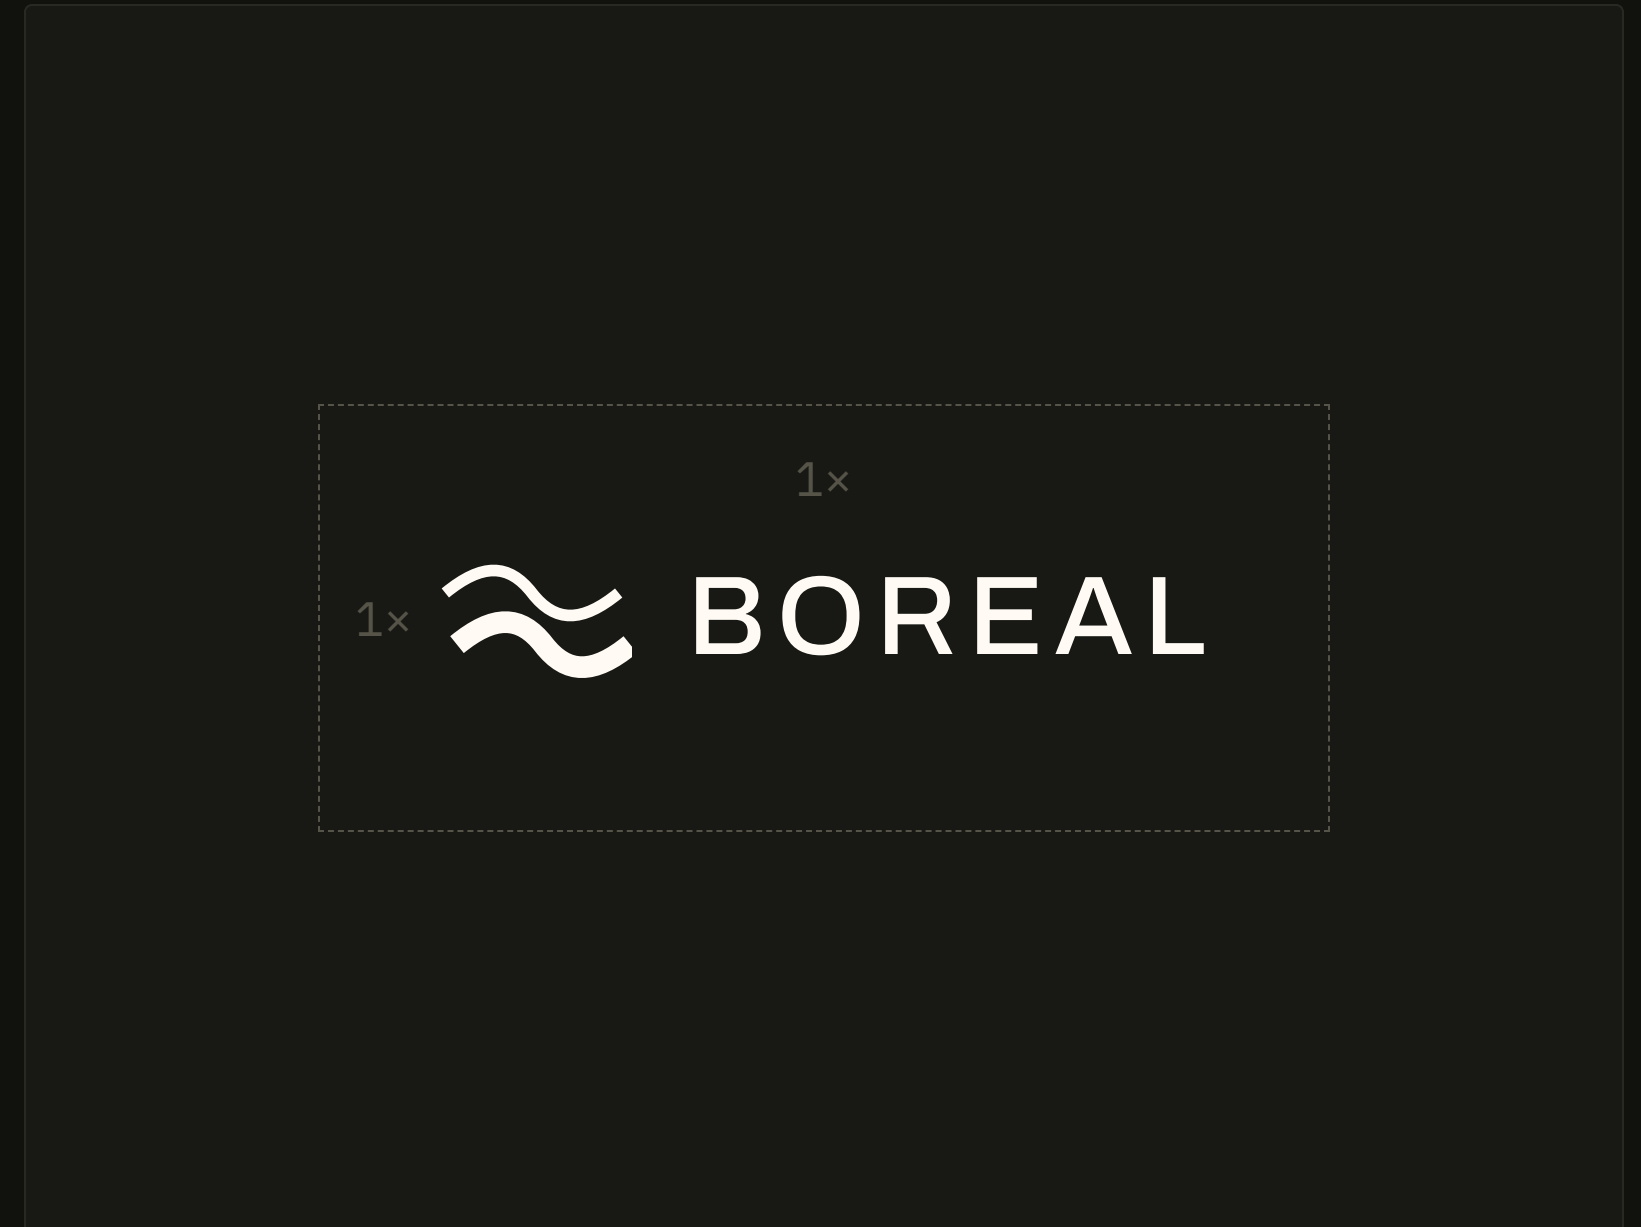

A quiet pair of currents — sober, editorial, unmistakably warm. The wordmark sets in Archivo Medium, all-caps, tracked 0.10em.

STROKE CONSTRUCTION

Two strokes on a shared rhythm: the lower is twice the weight of the upper (2t) and sets the construction unit. A small horizontal offset gives the form its organic lean.

CLEARSPACE & MINIMUM SIZE

Clearspace equals one thick-stroke height (1x) on all sides. Minimum symbol 16 px; minimum lockup width 96 px.

Three official configurations.

 BOREAL	 BOREAL	
 BOREAL	 BOREAL	
Horizontal MARK + WORDMARK	Stacked CENTERED, VERTICAL	Symbol Only MARK, ISOLATED

Each configuration is validated positive (Floral on Smoky) and negative (Smoky on Floral). Never recompose the mark and wordmark outside these three arrangements.

RISK PROFILE

Heavy-fabrication firm, four decades operating, founders past retirement age with no documented succession — a textbook permanence candidate.

BOREAL

Two weeks of deal sourcing, collapsed into thirty seconds.
